President's Message

Fishing is ON. If you have never fished the salmon fly hatch, I can't urge you strongly enough to get on out there. It is my favorite fishing of the year. Fishing them tight to the bank can be most productive but don't forget about the ones laying eggs out in the middle. To me, there isn't anything more exciting in fly fishing than seeing a big Deschutes redbside come up from the deep to inhale a salmon

fly. If you don't get anything on a trip, just try again. The float from Warm Springs to Trout Creek is great for beginner rowers. I think you could sleep on your pontoon boat the entire way and still get there.

The lakes are hot as well. My favorite is East where I landed 18 and missed 23 on chironomids in a day last year. All you need is any kind of a floating device and an assortment of sizes and colors of chironomids. Our Davis Lake outing didn't net many fish (except for Richard Yates) but Charlie Shilansky's food was most awesome. If you would like his "Best Barbecued Beans on the Planet" recipe, just send me an email and I'll get it to you.

Delores Marsh put together a wonderful slide show of all the volunteers working with the kids at Kokanee Karnival. You can see it via a link on our web page. Hats off the Frank Turek for managing this huge effort and thanks to all the volunteers.

Our Crooked River cleanup is netting less and less trash every year which I think is reflection of a job well done. The BLM is very appreciative of our efforts. Many of Karen Kreft's Next Cast kids helped out and fished after lunch. Quite a few fish were caught. Karen can still use help with the kids camp in June so please get a hold of her if you are interested.

Oregon Kids Fishing Day will be held at Caldera Springs in Sunriver on Saturday June 6 starting at 9:00. COF members are invited to attend, to bring their kids or grandkids and or come on out and help. ODFW stocks some lunkers in the pond and they can always use help with the fishing. Delores Marsh, Dave and Sandy Dunahay and I help with the kids fly casting. If you would like to volunteer, please contact Rynie Misyashiro at 925-864-7844 or boulderific@yahoo.com. The Sunriver Resort provides a free lunch to all who attend.

~Lee Ann Ross

David Paul Williams caught his first smallmouth bass in 1972 and he probably hasn't stopped talking about them since. David is an acknowledged "master of smallies on the fly" and he loves to share his passion for this amazing gamefish. For the June program, he'll take us on a bass-filled tour of Oregon's John Day River, the South Fork and mainstem Umpqua River and some Columbia River backwaters to learn about the fish, where they live, what they eat and how to catch the big ones. David is a writer and presenter. His authoritative and gorgeous new book *Fly Fishing for Western Smallmouth* (Stackpole Books) came out in July 2014. We have a copy in the COF library. He has written for numerous magazines including *Fly Fisherman*, *American Angler*, *Northwest Fly Fishing*, *Fly Fusion*, *Flyfishing & Tying Journal*, *Bassmaster*, *Salmon-Trout-Steelheader*, *Salmon Steelhead Journal* and others. He is a demonstration fly tier at numerous fly fishing expos around the Northwest and will be tying smallmouth patterns for us before the meeting. To learn more, go to www.thewriterealtor.com.

OUTINGS

Capt' Caddis Crappie On-a-Fly Challenge

June 12,13,14

Meet at Prineville Reservoir Resort

"Fins Up" fisherfolk. Plan now to join us on the high seas of Central Oregon for

the annual Capt' Caddis Crappie on-a-fly Challenge at the Prineville Reservoir Resort, June 12, 13 and 14. Why fish for crappie? Because it's FUN! After fishing all day, we'll gather for a potluck Saturday evening. You'll need a float tube, boat, pontoon boat, kayak or other watercraft plus fishing gear.

- For more information or to RSVP, contact Andy Smith (541-388-4346 or Andysmith-bend@gmail.com) or Betsy Brauer-Mullong 541-389-4372 (call before noon)
- For resort information (camp site reservations, boat rentals and all accommodations), contact Prineville Reservoir Resort (541-447-7468 or Prinevilleresort@yahoo.com)

OUTINGS CALENDAR 2015

MONTH	DAY	DESTINATION	LEADER
June	12-14	Prineville Reservoir: Crappie On The Fly+Bass	Betsy Mullong
July	16-19	Williamson River	Yancy Lind
Aug	18	Aspen Hall-BBQ	Herb Blank
Sept/Oct	TBD	Lower "D" Steelhead-4 days	Robert Gentry

Williamson River

The Williamson River is one of the top trophy trout rivers in the lower 48 states but remains fairly unknown, even here in Oregon. Only 2 hours from Bend, the Williamson has wild rainbow trout that grow to 30+ inches. The Williamson is unlike any other river I have experienced and requires unusual strategies. If you give it the proper effort, however, you can unlock the secrets and regularly catch trout larger than any other river has to offer in Oregon. There will be a club outing on the Williamson and the nearby Wood July 16-19. Send me an email if you care join in and I will send you a lot more information. There is no bank fishing; this trip requires a boat of some type. Pontoon boats are ideal; a drift boat will work as well. There are a few

very small rapids along with narrow channels between ledge rocks and some pretty shallow spots. There are also long slow moving sections, so be prepared to be on the oars. This is a camping trip; there are no reasonable motels nearby.

~Yancy Lind, conservation@coflyfishers.org

KOKANEE KARNIVAL

Review

The Kokanee Karnival Youth Education Program completed our Spring Angling Clinic held at Shevlin Pond in Bend for six days at the end of April 2015. We had pretty good weather, heck we really lucked out with the weather, and the students, teachers, parent chaperones and volunteers all had fun. Students learned a lot as well. ODFW stocked the pond with 2,000 trout and many were caught every day. Lots of smiling students and for many it was the first fish they ever caught. A few students caught several fish. We saw bald eagles and watched an osprey catch some fish. Channel 21 did a really nice report on Kokanee Karnival and you can see it on our Kokanee Karnival website under the drop down menu “About”. It is the story titled “Gone Fishin’ at Kokanee Karnival”. We had about 330 students attend this year and it would not have been successful without the dedication of the following volunteers. We had 45 volunteers and these people donated almost 690 hours and 2,100 miles to Kokanee

Karnival. This year many of the folks volunteered for 4 to 6 days and it really increased our efficiency at the stations and for daily clean up. Sorry if we missed someone but we got the names from the sign-in sheets. Thanks for volunteering!

Casting—Old Mill Casting Course

Tuesdays, July 7, 14, 21, 28 | Time: TBD | Free | Café Yum

You've all seen the standing hoop and the ring targets near the water features outside of Café Yum. But, have you ever brought your rod down and cast to them?

We're going to provide casting instruction on the casting course to improve your cast or get some practice for the tournament (see IFFF activities 9-Hole Casting Course Tournament, page 7). Yes, there is going to be a tournament and you can play, too!

Save the dates: Each Tuesday, July 7th, 14th, 21st and 28th, we will focus on specific holes and the casting technique required for that hole. Come and improve your distance, tune your roll cast, or focus on accuracy. Each hole provides a unique challenge.

Watch the July newsletter and your email for more details. Everyone is welcome.

Contact: Karen Kreft, 503-409-0148; dancingtrout@gmail.com.

CONSERVATION

Update

- Your Board of Directors voted to voice our support of the USFS proposal for restoration work on the Deschutes between Sunriver and La Pine State Park. There are illegal roads in this area that go down to the river. USFS hopes to permanently close them and repair existing bank and riparian damage. More information can be found at http://data.ecosystem-management.org/nepaweb/nepa_project_exp.php?project=45683.
- As I write this the ODFW budget is being debated in the Oregon Senate. The last I heard they were considering approving 50% of the increase in hunter and angling license fees requested by ODFW. This could lead to staff and hatchery cuts. Your board of directors previously voted to support the requested increase in fees in order to maintain ODFW staffing levels and programs.
- In a close vote, the Oregon Senate confirmed Governor Brown's controversial appointment of gill-net fishing industry lobbyist Bruce Buckmaster to the state Fish and Wildlife Commission. This is the organization who has ultimate control over the Oregon Department of Fish & Wildlife.
- On Sunday, May 10, the Bend Bulletin had a front page article on the lack of fish passage at Opal Springs dam. <http://www.bend-bulletin.com/exports/newsletters/main/3141728-151/state-sets-fish-ladders-at-opal-springs-as>
- The Kalmiopsis Wilderness in the Klamath Mountains is one of Oregon's most rugged and wild

landscapes is being threatened by open-pit nickel mining. If you've never seen this area check out this new short video, From the Mountains to the Sea, <https://vimeo.com/125074942>, about threatened Rough and Ready Creek and how it connects to the larger Rogue River watershed.

~Yancy Lind, Conservation Chair

TIP AND TRICKS

Lake Fishing Tip

This tip is for guys, sorry ladies but it just does not apply for you. The roads are open and we can fish the lakes again. We get our inflatable pontoon boats ready. We get up and have breakfast and more coffee on the road. Then at the lake we suit up with our waders and out on the lake we drink more water. Then it hits us, oh oh, we need to get to shore to do a little fluid recycling. So we row to shore, get out, pull the waders down, then suit up again and then row out to start fishing. What a waste of time. One alternative is to buy those really expensive waders with a zipper in the front. I am too cheap to do that so I came up with an inexpensive alternative. Think about it, when in the seat in the pontoon the water is only mid calf deep. So why do we wear those hot full body condoms? Hmmm. I switched to wearing hip boots. These keep you dry and you don't have to row to shore to do the recycling. This is really great at Hosmer where there is limited shoreline access. Plus hip boots are cooler when the sun is out and the temperatures rise. Even if you don't have hip boots they are sure cheaper to buy than the zipper waders.

SOCIAL MEDIA

Update

Our Facebook page has been growing by leaps and bounds and we currently

have 1,872 Likes! I get a number of queries asking if the club could use donations of used equipment. If you have any equipment you would like to donate, we certainly can take it off your hands. We have a very active youth fly fishing section, our Next Cast program that can always make use of equipment. We also work closely with Project Healing Waters. This is the PERFECT time to get rid of those lightly used waders you have sitting out in your garage or

that box of flies you've never used. The possible donations are endless and will greatly help out the club. Think about it and email me at: socialmedia@coflyfishers.org

~ Molly Vernarecci, COF Social Media Coordinator, socialmedia@coflyfishers.org

IFFF RENDEZVOUS NEWS

9-Hole Casting Course Tournament

Join us on the only casting course in North America for a 9-Hole Casting challenge! The course, located in the Old Mill District in Bend, is similar to a golf course with each 'hole' at different distances, a variety of targets, types of casts, i.e. roll cast vs distance cast, and other obstacles to provide a challenge! Just as in golf, each foursome will move from hole to hole, recording the number of 'strokes'—or casts of each team member needed to hit the target!

Participants at all levels are encouraged to play! No fear, there will be handicaps assigned to offer some equity! And who knows you may play your best round ever and win it all! You can put together a foursome or sign up as a single and join a team.

The tournament will be Thursday, August 13 with tee times beginning at 7:30 am.

Registration through the IFFF website (<http://www.fedflyfishers.org/Fly-FishingFair/tabid/298/Default.aspx>) opens on June 8. FFF member fee \$20, Non-member fee \$25.

~ Karen Kreft, 503-409-0148, dancingtrout@gmail.com

The International Federation of Fly Fishers 50th Anniversary Fair

The International Federation of Fly Fishers will hold its annual Fly Fishing Fair in Bend Oregon and will be celebrating "All Things Fly Fishing" August 13th thru the 15th 2015. This event will be the largest gathering of fly fishers from all across the United States and the around the world. The show is open to the public so everyone will have the opportunity to join in the fun and learning experiences.

Headquarters for the event will be in the Riverhouse Hotel with other venues taking place through the area. The Exhibit Hall is open August 13–15 from 9 am to 5 pm, where vendors will display the latest products they have to offer to the fly fishing enthusiast; see tying and casting demonstrations, take free 15 minute casting lessons, hour long seminars and more. Other opportunities include a Women's two day University, a 2-Day Fly Fishing Experience, and a Youth Camp. Workshops will be available from August 11–15. For a full schedule of events and how to sign up, go to www.fedflyfishers.org and click on the Fly Fishing Fair tab.

"It's hard to believe we're 50 years old" said Philip Greenlee President/CEO. "The International Federation of Fly Fishers was founded in 1965 in Eugene Oregon with our return to Oregon we come back to our roots"

Today the IFFF has grown to 17 councils, approximately 225 clubs and thousands of individual members. Our goal is to support fisheries conservation and educational programs for all fish in all waters. Anywhere fly fishers have an interest; the IFFF can and does play a role.

~ Gene Kaczmarek, IFFF, Flyingties@aol.com

IFFF 50th Anniversary Homestay Program

BEND, OR | RIVERHOUSE CONVENTION CENTER | AUGUST 11-15, 2015

In 2015, IFFF will celebrate its 50th Anniversary, a landmark event that celebrates both the history and the future of the federation. The celebration will take place in Bend, OR, the ideal time to welcome global affiliates to our U.S. home and to showcase our international credentials.

We are looking for members of local fly fishing clubs who would be willing to host our global members by participating in the IFFF's Homestay Program. The IFFF meeting will be held in Bend from August 11 to 15, 2015 at the Riverhouse.

The Homestay program will involve hosting an IFFF member from a foreign country during the week of the IFFF's International Fly Fishing Fair, probably from August 10 to 16. In exchange, the host member would be able to stay as a guest in the foreign visitor's home for a week. Participation in the program would also include taking the foreign guest fishing on a local

stream or lake during the week and providing transportation from the host's house to IFFF events. Presently, the IFFF is expecting about 18 people from foreign countries including Japan, England, Norway and Australia.

This would be a great chance to host a fellow angler, meet some interesting people, improve international (fishing) relations and get a chance to travel to a foreign country to fish.

For more info: Marv Yoshinaka

~Eric Steele

Women's Fly Fishing University

We've got two days of learning and fishing on Oregon's best fly fishing water! This class is open to women at all levels and will provide both technical information and hands-on fishing with the opportunity for some big fish!

We will teach the basics to get you started; offer some areas of instruction to increase your independence and confidence; and introduce you to some fishing techniques specific to these types of water. There should be something for everyone!

Our instructors include professional guides, certified casting instructors, fisheries professionals and experienced fly fishers. Each of these ladies share in the passion of fly fishing and want to offer that to our university students!

We're in the fly fishing capital! Let's go fishing!

The event is August 11 & 12. Registration through the IFFF website (<http://www.fedflyfishers.org/FlyFishingFair/tabid/298/Default.aspx>) opens on June 8. (FFF member fee \$250, Non-member fee \$270).

WILD WOMEN OF THE WATER

Thank you to Peter for a great “Fly Shop Hop” at The Patient Angler this last month, Peter was full of wonderful information for our Wild Women! He is a great resource for all things fly fishing!!

On June 24, The Wild Women of the Water will visit Reed at Fin & Fire in Redmond in this continuing series of fun evenings. Not only will we glean fly fishing info, but we will also enjoy tasty treats from their line of Trager BBQs. Yum!!

Thank you to Mary Ann Dozer for teaching our fly fishing 101 and 201 women’s classes. With all the new info they absorbed, these women will be a big threat to all fish in the area! We are looking forward to more classes from Mary Ann.

The Wild Women will be hitting the Crooked River on June 6 for our next fishing outing. The river is fishing very well lately. Join us for a fun day on the water.

Be sure to check out all of the classes and workshops offered during the IFFF Fair in August. A two-day fly fishing workshop for women will be held on August 11 & 12. See the IFFF activities in this newsletter for details.

~Kari Schoessler,
wildwomen@coflyfishers.org

NEXT CAST FLYFISHERS

Update

The Next Cast Flyfishers program provides opportunities and coordinates activities for young fly anglers in the area. We are able to help provide fly fishing instruction through classroom activities, our fly fishing summer camp, ongoing COF events, and individually through mentorship and teaching.

We hope that by providing these opportunities, young anglers will be exposed to fly fishing and increase their interest and level of involvement.

Our Next Cast members joined the COF outing to the Crooked River for a river clean-up, hamburger BBQ, and fishing! The young anglers jumped right in and gathered garbage and waste along the river. We also took the opportunity to discuss the value of clean water and riparian zones and the impact on the fishery.

The kids had not previously fished on the Crooked River and they all did a great job. We had lots of hook ups and several fish to net! Working on roll casts and line management in a practical setting was terrific! Everyone improved.

The Next Cast Flyfishers 3-Day Fish Camp is FULL!

The camp coordinated through Bend Parks & Recreation (http://www.bendparksandrec.org/Recreation_Programs/) will be June

15–17, 2015 at Shevlin Park, Bend OR. Camp attendees learn all aspects of fly fishing including knot tying, bug collection and identification, fly tying, casting and fly fishing in Shevlin Pond.

We will need several volunteers for each of the three days. The camp runs from 9:00 am–1:00 pm each day. The schedule will include casting and fishing each day, along with sessions on gear and equipment, knots, fly tying, bug collection and identification, regulations, where to fish and safety.

Please let me know if you are available any of the three days to volunteer with the camp.

Youth fly fishing activities will also be available at the International Federation of Fly Fishers 50th Anniversary—August 11–15, 2015 in Bend OR. The IFFF will hold their 50th anniversary fair in Bend this summer. The fair will feature classes for instruction in a variety of fly fishing topics, displays and demonstrations, and other events. There will also be a youth fly fishing 2-day workshop and daily youth activities at the fair. The registration guide will be published in early June. Watch this newsletter or visit the IFFF website (<http://www.fedflyfishers.org/>) for details.

~Karen Kreft, nextcast@coflyfishers.org,
503-409-0148

TYER'S CORNER

Clark's Golden Stone

This is a fly pattern you've probably seen before. It's popular for a reason...it works!

The Salmonfly hatch started early this year and the Golden Stones are following close behind. So if you've put your Salmonfly imitations away, the Golden Stones will still be available to the fish.

This fly works so well because of its low profile in the water. The abdomen of the real bug starts to sink. Have you ever fished a fly and at the end of the drift it begins to sink underwater and then...

WHAM? I've had that experience. Many patterns these days use foam, like the Chubby Chernobyl. They are great imitations, but sometimes the fish are looking for a different fly. Tie on a Clark's Golden Stone and hang on!

For more information about Golden Stoneflies, check out the post on RiverKeeper Flies entitled Golden Stones (<http://www.johnkreff.com/golden-stoneflies/>).

Give the Clark's Golden Stone a try. You won't be disappointed.

Directions:

1. Start the thread behind the eye and lay down a thread base on the shank to just above the barb of the hook.
2. Tie in a length of tinsel at the barb and spiral the thread forward to the 1/3 position. Wind the tinsel forward using touching turns. Tie off the tinsel and trim excess. (Optional—add head cement or super glue to hook before wrapping forward for additional strength.)
3. Comb and blended poly yarn and tie atop the hook at the

©RiverKeeper Flies

MATERIALS

Hook:	TMC 5212 or Dai Riki 280, #10-8 (TMC 200R or Dai Riki 270)
Thread:	Danville 6/0 orange
Body:	Gold flat mylar or tinsel
Underwing:	Clark's variegated gold poly yarn
Wing:	Elk or deer hair
Hackle:	Brown or ginger, 6-10 wraps

4. Select and clean a bundle of deer or elk hair. Stack hair if you like, but Lee Clark recommends not stacking. Place the hair wing over the poly yarn with the tips of the wing extending 1/4 inch beyond the end of the yarn. Secure the wing in place with thread wraps and trim the butts down to a taper. Cover the tapered butts with thread wraps to form a smooth base for the hackle.
5. Select a hackle feather sized to the hook and tie it in at the front of the wing. Wind the hackle feather forward 6-10 turns. Tie

off and trim.

6. Form a neat tapered thread head and whip-finish.
7. Cut a V-notch at the bottom of the hackle to give a lower profile when the fly sits on the water.

This is a style of fly that can be used for any stonefly (e.g., Little Yellow Stone, Little Green Stone, Salmonfly). Coordinate the thread and body color.

Sunriver Anglers Club Presentation

June 18: Sunriver Angler's Club Presents Special Program On Deschutes River

On Thursday, June 18 at 7 pm the Sunriver Anglers Club will present a significant program illustrating the current state of the upper Deschutes River and the efforts being undertaken to restore stream flow and improve water quality in the river basin. All COF members are invited to attend.

The program will include a video presentation by cinematographer, Scott Nelson, who has created a powerful video which describes the current condition of the river and how this came to be. We will also have a visual presentation by Jason Gritzner, USFS Hydrologist, showing the conditions of the river and the adjacent stream banks at different stages of the draw-down which annually occurs when upstream reservoir storage cycles begin.

Following the two visual presentations, Tod Heisler, Executive Director of the Deschutes River Conservancy, will describe the status of efforts now underway to improve the river.

The meeting will be held at the SHARC in Sunriver. For additional information concerning the June 18 program, contact Ron Angell at 541-593-3242.

Net Building Class Review

Steve Stevens, with help from Steve and Dave led a net building class this last month.

The fine wood was formed by Steve and friends. Class members sanded, sealed, drilled holes

and attached the nets. One net brought a nice 15 inch trout to hand on the Deschutes around Maupin the next day. These things work!! Watch for the next class, so you can create a personal heirloom, too! Thank you to Steve and friends!

~Kari Schoessler

Wounded Troops Brigade

On May 3, COF members Pete Hawkins, Chuck Burley, Eric Steele, Steve Shelton, Brett Miller, and myself were among the boat captains who helped take a group of wounded veterans and active duty members of the Wounded Troops Brigade fishing on the lower Deschutes. We tried to show them a good time. By all accounts we met our goal. An extra mention to Pete and Brett who are veterans themselves.

~Yancy Lind

NW Fly Tyer & Fly Fishing Expo Results

The 2015 NW Fly Tyer & Fly Fishing Expo is over for another year and I'd like to take this opportunity to thank the fly fishing clubs throughout Oregon for their efforts to make the Expo a success.

As the only fund raiser event for the Oregon Council of the International Federation of Fly Fishers, all Expo profits provides dollars to fund 2 OSU fisheries scholarships, conservation projects in Oregon, and other education projects for member clubs in Oregon.

Here are some final numbers:

- Net profit of over \$20,000
- Attendance—approximately 1,800
- Classes—183 students participated in 56 classes
- Tyers—200 fly tyers demonstrated at 72 tables over 2 days
- Volunteers—over 200 volunteers helped this year

If your club served a major roll volunteering at the Expo, thank you. If you'd like to increase your presence we could sure use your help.

The Expo can only continue with volunteers from clubs like yours. And we need some help for next year. Key positions to be filled are in Classes, Catering & Hospitality, Auctions/Raffle, Merchandise, and Advertising/Promotion. These are important positions and filling them will directly impact the success of next year's Expo and create a profit to operate the Oregon Council.

I hope to see you on March 11 & 12, 2016!

If you volunteered at the Expo, please let Dick Olson know how many hours you worked. This will allow the club to track all volunteer hours. Thanks, Lee Ann
